Business Continuity Policy

Green Street has developed a Business Continuity Plan to address how we will respond to events that could significantly disrupt our business whether they be due to weather, health or some sort of unforeseen disaster. Since the timing and impact of disasters and disruptions is unpredictable, we will have to be flexible in responding to actual events as they occur. With that in mind, we are providing you with this information on our Business Continuity Plan.

Contacting Us

During a significant business disruption, you can contact us at (949) 640-8780. Green Street will also post relevant updates on its website www.greenstreet.com.

Our Business Continuity Plan

We plan to quickly recover and resume business operations after a significant business disruption and respond by safeguarding our employees and property, making a financial and operational assessment, protecting the firm’s books and records, and allowing our customers to transact business. In short, our business continuity plan is designed to permit our organization to resume operations as quickly as possible, given the scope and severity of the significant business disruption.

Our business continuity plan addresses data backup and recovery, all mission critical systems, financial/operational assessments, regulatory reporting and alternative communications with customers, employees, regulators, critical suppliers, and third-party service providers.

Varying Disruptions and Pandemics

Significant business disruptions can vary in their scope, such as only our firm, a single building housing our firm, the business district where our firm is located, the city where we are located, or the whole region. Within each of these areas, the severity of the disruption can also vary from minimal to severe. In a disruption to only our firm or a building housing our firm, we will operate remotely and expect to resume business as soon as possible. In a disruption affecting our business district, city, or region, our employees will work remotely. In the event of a pandemic illness, the firm will follow the guidelines set forth by the CDC regarding spread prevention, travel restrictions and alternative working arrangements. If employees are ill or have been exposed to the specific virus (illness), they are required to stay home and self-quarantine. The health of our employees is of the utmost importance and the firm will consider whether it is in their best interest to temporarily close any given location. The CEO and/or the firm’s Senior Leadership Team will make these necessary determinations should this situation arise. In all situations, the firm will make IT infrastructure a top priority to support our staff that may need to work remotely for a prolonged period.

For more information

If you have questions about our business continuity planning or need additional information regarding the plan in its entirety, you may contact Robyn Francis, Chief Compliance Officer (949) 640-8780 or rfrancis@greenstreet.com.

Please note that our Business Continuity Plan is subject to modification – updates will be posted as needed.
